Speaking and Conferencing on behalf of Answers in Genesis

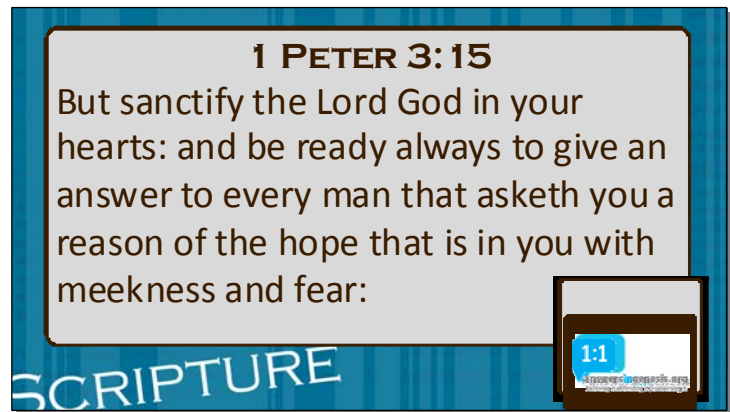

Gillespie Update August 2010

*What does an Answers in Genesis conference with the Gillespies look like?*

*One conference attendee writes: "I was really blessed by all that you shared with us and how you shared it all in a different light than what I had ever heard before. I know that as believers we need to have answers to those who ask us for the hope that is in us, and I know a lot of those answers, but I just didn't realize the need to rebuild the theological foundation of the majority of people in this "Greek" society. Your lecture really opened my eyes to why we need to do this and how to go about it, and really boosted my confidence in sharing my faith with others. I was also partially unaware about most of the misconceptions that are being taught in a lot of churches to children and adults alike. I now realize how crucial it is to teach children Biblical stories as a whole with the exact details and explanations of what really happened, not dumbing and watering everything down and making the Bible seem fanciful."*

Do you have holes in your Shield of Faith?

Many people have questions about taking the book of Genesis literally that have never been answered. If we ask such questions as:

- What about Carbon 14 dating?
- How did Noah get all the animals on the ark?
- Etc.

we might get an answer like "It doesn't matter; just trust in Jesus." The hidden message is that good Christians don't ask questions; they just have faith.

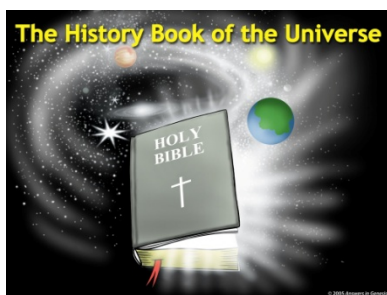

Those questions just don't go away. We have a tendency to tuck them deep inside and try not to think about them, but they start to erode our faith and we end up with holes in our Shield of Faith. While we should be standing firm with our shields up and ready to use the word of God with confidence, flaming darts are aimed right at the holes and we wonder why we have weak spiritual lives.

This was the message that I brought to the kids at family camp this past month at Camp Patmos. This message is not only important for the kids, but for moms and dads as well. Our salvation, our spiritual growth, and the very culture we live in, is entirely dependent on our faith in the authority of God's Word from the very first verse.

This message will be at the center of our conferences as Lois and I continue with a busy summer and fall schedule. August looks like this:

### August 2010

- 1 Edinburgh, IN
- 2-6 Twin Lakes Camp, Hillsboro, IN
- 8-11 Emmanuel Baptist Church and Christian School, Clarksburg, WV
- 15 Lakeville, OH
- 22-23 Elkview, WV
- 29 Massillon, OH

What does an Answers in Genesis conference with the Gillespies look like? Generally, we start out in Sunday School with *The True History of the World*. It answers some of the most asked questions like those mentioned above. We continue Sunday morning with *The Relevance of Genesis*, explaining what compromise on God's Word has done to America and why Genesis is vital to the gospel message.

Sunday evening starts out with *Dinosaurs and the Bible*, a talk enjoyed by children as well as adults as we answer the question "Does the Bible really talk about dinosaurs?" The Sunday conference concludes with *Creation Evangelism: Why Won't They Listen?* This talk explains how we can witness more effectively in our postmodern culture.

If a 6-session conference (either starting on Saturday or concluding on Monday) is desired, we can intersperse the above talks with Answers in Genesis videos by Ken Ham or other popular speakers. Such videos might include *Six Days of Creation*, *State of the Nation 2*, or *Demolishing Strongholds*.

For Christian schools, additional programs are available for the students and for In-Service teacher training. Resources are available for sale during the conference to further equip God's people to defend their faith.

We would love to come and share these messages with you. We feel privileged that God has given us this responsibility. Please contact us if you are interested in hosting a conference for your church and/or community.

In Awe of God,
